

Coleman Fyrelight Trekking Stove

~~\$49.99~~ **\$24.90**

Details

The Fyrelight is Coleman's most lightweight trekking stove, so it is the perfect stove to bring along with you when you're planning a strenuous hike and you need to lighten your load as much as possible.

Watching the flame die on your stove after spending the last 4 hours hiking in the freezing cold wind is an experience you won't have with the Fyrelite - it can boil a litre of water in under 10 minutes even in a 3M/SEC wind. That means you throw on a freeze-dried meal and be eating your dinner by the fire in no time.

You won't have to worry about your ignition failing to work, as this stove uses a humble match light - old school but reliable. The pan supports are detachable, which makes fitting the Fyrelight into your pack just that little bit easier - and they're serrated which will prevent your pot from slipping around.

Perfect for cooking for 1-2 people at a time
Great for Scouts and budding adventurers
Carry pouch included

Specifications

Snowys Code:	136503
Supplier Code:	1410231
External Dimensions:	10W x 9D x 8.5H cm
Packed Dimensions:	8W x 4D x 8.5H cm
Material:	Steel
BTU Per Burner:	12000 BTU
No. of Burners:	1
1L Boil Time:	9.8 mins in 3m/sec wind
Fuel Type:	Isobutane Propane
Fuel Consumption:	227g/hr approx.
Ignition:	Manual
Gas Fitting to Bottle:	Self Sealing Threaded
Weight:	0.076 Kg
