

Camelbak
All Clear Pre Filter

\$22.90

Details

Before you jump the gun and start using your UV water purifier to get rid of those pesky waterborne viruses, make sure you filter out any of the chunky bits with the All Clear Pre-Filter from Camelbak.

The nylon screen will swiftly and efficiently sieve out any larger sediment or particulates floating around in the water, and the frame of the filter fits over the bottle threads, which will protect them from the untreated water when sourcing directly from a body of water.

500-micron screen
Frame mounts over the bottle to protect from untreated water
Lifetime guarantee
