

Ledlenser  
**P7R Rechargeable Tactical Torch**

~~\$229.95~~ **\$179.90**

**Details**

You won't need those pesky disposable batteries for your professional flashlight anymore with the Rechargeable LED Lenser P7R.

With up to 1000 Lumens of light and multiple light settings operated from a single tail switch, the P7R provides functional bright light through Ledlenser's Advanced Focus System for a single-handed transition from flood to spot.

If you use your torch on a daily or even regular basis, it just makes sense to consider a rechargeable model. Not only does it reduce the number of batteries that go into landfill each year - it saves you the time and energy of constantly buying and replacing something. If you can recharge your phone or tablet - you should be able to recharge your favourite flashlight.

- Rechargeable
- Single-handed Speed Focus
- Fast Lock focus lock
- Microprocessor controlled Smart Light technology
