

## Sea to Summit Pack Tap 2 Litre

**\$27.21**

### Details

A great alternative to hard plastic water storage containers, the Sea to Summit Pack Tap 2L is a lightweight and compact way to carry extra water for a day trip, and the soft nature of the bag means you gain space in your backpack as you drink water from your Pack tap.

Completely tasteless, safe to use around food and easy to use as you can just hang one up on a tree to set up a water station. You won't have to worry about water leaking everywhere as it contains a self-shutting valve for one-handed use, plus the plastic/foil bladder is tough and won't puncture easily.

When you need to transport water outdoors, you can't go wrong with the space-saving Pack Tap 2L from Sea to Summit.

Food safe  
Durable  
Self-shutting valve for one-handed use  
Easy attachment and storage  
Anchor points for stress-free attachment
