

Black Diamond Icon High Output Headlamp

\$102.90

Details

For professional level lighting, the Black Diamond Icon headlamp delivers high output and exceptional burn times all wrapped up in a sturdy waterproof construction.

The Icon combines proximity, and distance modes plus red, green, and blue night vision options- to cover the full spectrum of illumination needs. Featuring one quad power spotlight and 1 DoublePower white LED which emit a huge 500 lumens on the maximum setting.

This headlamp is submersible down to 1 meter for up to 30 minutes and is also dustproof for added robustness. The three-level power meter will show you the remaining battery life for three seconds after switching on the headlamp and can be set to lock mode to prevent accidental battery drain. When not in use, you can remove the battery and stow it away in your pocket to conserve power.

The Icon from Black Diamond is perfect for night hikers, mountain bikers, night runners, and adventurers alike who want professional level lighting without compromise.
