

Zempire Neo 8+ Dome Tent

\$499.99

Details

The Neo 8+ is the stable and functional group tent that'll house you and a few others on your outdoor adventures.

This tent has a 3000mm waterhead rating and is fully seam sealed to keep you warm and dry in your shelter. And when the weather is warmer, the large windows will allow for cool air to flow through your shelter.

The Geodesic frame and low rear profile add to the stability of this tent, so it's going to hold up really well in the elements. The Neo 8+ also has increased bedroom sizes which means there's more room for your stretchers - perfect for those who like to sleep elevated off the floor.

You can set up an awning for extra undercover space thanks to the included awning poles, and this tent also comes with an expandable carry bag to make packing it away easy. The twin full side openings make this tent very livable as access is easy, and pitching is made easier due to the colour coded poles.

A classic dome tent with plenty of stability and functionality - the Neo 8+ from Zempire is a great addition to your adventure kit.

Geodesic frame and low profile adds extra stability
Large windows for ventilation
Colour coded poles for easier pitching
Fully seam sealed
