

Platypus
GravityWorks 2.0L Filter
Complete Kit

\$208.90

Details

A water filtration system that does all the work while you go about setting up camp. The Platypus GravityWorks filter does away with all the moving parts found on many water filtration systems and uses the natural force of gravity to turn contaminated water into safe drinking water.

The kit includes two water reservoirs, one clearly labelled for dirty water and the other for clean, and a filter that attaches between the two. Hand the full dirty reservoir higher than the empty clean one and leave it alone to do the work for you. Cleaning the filter is easy, simply raising the clean bladder higher than the dirty one forces water back the other way, clearing the pores in the hollow fibre filter and restoring flow to your filtration system.

This kit comes complete with bottle adapters, so you can filter directly into your water bottle or bladder, and all of this packs neatly away in the included storage sack.

Includes bottle adapters for most MSR®, Nalgene®, Klean Kanteen®, CamelBak® bottles and bladders
Hollow fibre filter technology
Easily backflushed for field maintainability
Complete with 2 reservoirs - one clean one dirty
Ideal for 1-4 people
Includes storage sack

Specifications

Snowys Code:	139214
Supplier Code:	M135-06951
In Use Dimensions:	33L x 19W x 8H cm Approx for each reservoir + 90cm Hose
Packed Dimensions:	25L x 18W x 13H cm
Material:	Nylon Polyethylene Polypropylene BPA Free
Filter Size:	0.2 Micron
Filter Life:	1500 L
Effective Against:	Bacteria Protozoa
Flow Rate:	1.5 L/min
Weight:	0.31 Kg
Warranty:	Limited Lifetime
