

Darche
Eclipse 180 Awning Gen 2

\$859.00

Details

If you love to pack up your 4WD and hit the open road as much as possible, then chances are you're always looking for ways to get the perfect touring setup. If your vehicle could use some extra shade and shelter, then the Eclipse Awning 180° Gen 2 from Darche is a no-brainer.

Best for dual and single and space cabs and general canopy and wagon setups - this awning will give you up to 8.2m² of cover over the length of your vehicle. The Eclipse can be quickly set up and packed down with just one person, so it can be used on solo adventures.

The awning is made from new robust 320 gsm polycotton grid ripstop canvas, with an updated lightweight box tube alloy rafter system, and an aluminium swivel hinge system on both ends. It will span 6m along your vehicle and has two pivoting alloy telescopic leg poles which can be packed away on the rafters. The good news is that this beauty can be mounted on either side of your vehicle.

This awning also comes with included mounting brackets that are suitable for most commercially available steel basket and flat rack setups. To add extra shade, you can get the separate wall which can be attached as an extra windbreak or extension of this awning. Complete your touring and camping set up, with the Eclipse Awning 180° Gen 2 from Darche.

Can be set up and packed up by one person
