Suunto
Core ALU Deep Black
$599.99

Details

If you need a classic outdoor watch, with all the basic features you could need, then look no further than the Core ALU from Suunto.

This watch is easy to use and will cover you on your outdoor expeditions, and in your everyday routine. The aluminium bezel keeps the weight down on your wrist, while the silicone strap gives it a comfortable fit. The altimeter feature determines altitude, and the barometer measures atmospheric pressure.

The depth meter will show your current depth and the maximum depth reached which is handy for snorkelling, and the storm alarm will notify you of oncoming bad weather. You don't have to stress about keeping this watch charged all the time, as it has a battery that's user-replaceable.
The mix of modern design, plus all the essential outdoor functions you'll need, is what makes the Suunto Core ALU watch ideal for the everyday adventurer.

Classic & reliable watch for adventurers
Sunrise/sunset
Depth meter for snorkelling
Multiple watch, date and time functions
User replaceable battery
Multilingual menu
