

BioMagic WaterPure Tank Sanitiser

~~\$15.00~~ **\$12.90**

Details

Make sure your drinking water tanks are clean and sanitised before filling them up by using the BioMagic WaterPure Tank Sanitiser.

Use 50mL per 100L of water in a full tank, run a few litres of water through the taps and leave it overnight to soak. In the morning you can just drain and refill with clean drinking water.

WaterPure Tank Sanitiser contains no chlorine, leaves no residue and has active ingredients that are approved by the National Health & Medical Research Council for use in drinking water.

Quick, simple and safe water tank sterilisation
Active ingredients approved by the National Health & Medical Research Council
Overnight treatment
