### Details

The IceMule Soft Cooler Bags are a cut above your average cooler bag thanks to its sleek look, leakproof construction and easy to use roll-top closure.

This cooler has a thick layer of insulation that's covered by a laser welded exterior, so it's leakproof, it floats, and it will keep your drinks cold for up to 24 hours. To close it up you roll it shut, and when you need to transport your goods, the integrated shoulder strap makes that super easy.

The IceMule also has an air valve which enables you to compress the insulation down so that it rolls up nice and compact to fit back into its included mesh storage sack. Easily transport your beverages and snacks on your adventures with the Soft Cooler Bag from IceMule.

Keeps ice for up to 24 hours
