Details

Out-of-the-box comfort, waterproof construction, and breathable materials are what make the Merrell Moab 2 Mid GTX Boot so versatile for your open-air explorations.

These shoes provide protection and breathability as they're made from synthetic leather and mesh. Your toes are protected against obstructions you might encounter on the trail thanks to the rubber cap, while the bellow tongue keeps debris from getting kicked up in your shoes. The lining allows your feet to breathe as it's made from mesh, while the EVA footbed has arch and heel support for comfort as you hike.

If there are light showers on the horizons or a few puddles on the trail, the Gore-tex membrane will keep your feet nice and dry. Impact is absorbed through the air cushion in the heel, and the EVA midsole provides extra cushioning. And for grip and slip-resistance on varied terrain, you can rely on the Vibram rubber sole with 5mm deep lugs.

Hike in the Moab 2 GTX Boots from Merrell, and you'll soon discover why they're called the Mother-of-all-boots.

- Gore-tex waterproof membrane
- Synthetic leather and mesh upper
- Bellows tongue and protective rubber toe cap
- EVA contoured footbed with arch and heel support
- Air cushion in the heel
- EVA midsole for stability and comfort
- Vibram rubber sole with 5mm lug depth
