Details

With out-of-the-box comfort and superior breathability, the Breeze III from Vasque is perfect for lightweight hikes and day trips.

The upper is made from waterproof nubuck leather for protection and air mesh to make them as breathable as possible. Stability and cushioning are provided by the dual density compression moulded insole, while the moulded toe and heel counters make these shoes more durable. Getting the right fit is easy thanks to the speed lace system, and the Vibram sole will provide you with the grip you need to tackle the loose and rocky terrain.

This style is lighter and agiler than the boot version, which is ideal for those who like a bit more mobility on the trail. Turn to the Breeze III Low GTX Shoes from Vasque when you need reliable comfort, protection and breathability on your outdoor adventures.

- Waterproof nubuck leather and mesh upper
- Waterproof and breathable Gore-tex membrane
- Vibram Contact Grip outsole
- Speed lace system for easy adjustments
- Moulded toe and heel counters for durability
- Dual density compression moulded midsole for stability
- Ideal for: hiking and bushwalking
