

Marmot Tungsten UL 1P Hiking Tent

~~\$549.99~~ **\$499.90**

Details

Other freestanding lightweight tents can be a little on the squeeze side, but the Tungsten UL 1P tent is designed to have more space for weight compared to others in its category.

What's unique about the Marmot tents, is that the poles are pre-bent to create vertical walls, and the clips are strategically placed for more interior volume. The Tungsten UL also has a seam taped full polyester fly that won't stretch out or sag when it gets caught in a shower, and it'll resist damage from UV exposure. For easier pitching, this tent has colour coded clips, poles and fly, and the jingle-free zipper pulls aren't going to rattle in the wind and disturb your sleep.

Access is through the singular D door, and you can stash your pack and other gear in the vestibule. For ambient lighting inside your space, just stick your headlamp in the lampshade pocket, and if you always end up rolling over onto your keys or phone, pop them in one of the interior pockets to keep them out of the way.

The Tungsten UL 1P is the lightweight one-person tent for the solo explorer looking for a compact yet liveable shelter.

Freestanding design
