

Coleman
350M Battery Guard
Flashlight

~~\$44.99~~ **\$39.90**

Details

If your torch always ends up drained of battery power when it's been in storage, then the Battery Guard Flashlight 350m LED by Coleman is the unit that you can rely on. This torch is unique in that when you turn it off, the batteries are completely disengaged meaning that they last 25% longer and retains brightness for twice as long. Providing 750 lumens of light on high and 20 lumens on low - this unit offers up a simple design for general camping use. The exterior has a comfort grip, which makes it easier to hold so that you don't drop it. It's also constructed from aluminium to make it lightweight and has a rubber edged bezel for extra durability and drop protection. This flashlight is IPX4 rated, so it's water resistant and is also impact resistant up to 2m. For dependability in a blackout or on a camping trip, you can rely on the battery Guard Flashlight 350M from Coleman. 750 lumens on high and 20 lumens on low Batteries become completely disengaged when turned off Retains brightness twice as long and the batteries last 25% longer Comfort grip design minimises the chances of dropping your light Lightweight aluminium construction The rubber edged bezel is impact resistant up to 2 meters IPX4 rated
