

Enforcer
Cordless Rechargeable Bug
Zapper & Lantern

~~\$89.95~~ **\$69.90**

Details

You'll be able to stop mozzies in their tracks and have extra light around the campsite without a power supply with the Cordless Rechargeable Zapper from Enforcer. This cordless zapper operates from its lithium battery, which gives you the option to recharge from either a USB power supply or from its onboard solar panel. This battery can also be recharged up to 2000 times and is replaceable as well. Not only does it zap mozzies and other biting insects by attracting them with UV light, but this unit also doubles as a lantern as there are two banks of LEDs. If you want to run it overnight, you can also put it on the auto on-off function so that it will switch off at dawn. Great for setting up at home on the deck, at the campsite, or when you're having a picnic - the Cordless Rechargeable Zapper from Enforcer will help you enjoy a bug-free space when you're outdoors. Lantern and mosquito zapper in one Lithium battery can be recharged by USB or onboard solar panel Runtime of 20 hours Battery is replaceable and can be recharged up to 2000 times Two banks of LEDs - UV for mosquito attraction and separate for lantern Auto on-off function to leave on overnight, switching off automatically at dawn USB cable included
