

## Voile 22"/ 55.8cm XL Strap Aluminum Buckle

**From \$17.00**

**Available colours:**

Black | Red | Orange | Green | Blue

### Details

Wider, thicker and stronger than the original - you can count on the Voile XL Straps to secure or repair your gear when you're out in the field. For over three decades, the original design has been used as a tougher alternative to duct tape, bungee cords and nylon straps - but the XL Voile strap is the 20% thicker, 25% wider and stronger version for extra strength. It's made from hardwearing stretch polyurethane which also has a UV resistant additive to increase the lifespan, and comes in a range of colours for visibility. The buckle is made from a tough heat-treated aluminium which has a slim profile so that it's easy to pack. This strap works in extreme weather such as snow and can be daisy-chained together to create the perfect length that you need. A couple of Voile Straps XL will go a long way in your rucksack, toolbox, or pannier for on-the-go repairs. 20% thicker and 25% wider than the original design Alternative to duct tape, nylon straps and bungee cords Made from tough stretch polyurethane with UV resistant additive Heat treated slim profile aluminium buckle Limitless uses Holds tight and won't slip Time tested super strong design Works in extreme weather
