

MSR
Carbon Reflex™ 1P Ultralight Tent

~~\$1,069.00~~ **\$959.90**

Details

With feather-light fabric, a streamlined zipper-free vestibule, and poles made from Easton® carbon fibre - the Carbo Reflex 1 from MSR is whisper light, coming in at the same weight as your average tarp, and packs down to the size of a water bottle. Updated for 2019, the Carbon Reflex 1 is the lightest double-walled single person tent available in MSR's range. Don't be fooled by the sleekness of the structure or lightness of the fabric - the stress points of this tent have been reinforced for robustness, and the entire design offers full protection from 3-season weather. The waterproof fly features MSR's DuraShield™ treatment, while the floor has an Xtreme Shield™ waterproof-coating for protection from the elements. The Carbon Reflex also has excellent air circulation and moisture control as the inner is made from breathable micromesh, while the vestibule is roomy enough to store your pack, boots and other gear. The Carbon Reflex 1 from MSR is the fast and light shelter choice that doesn't sacrifice durability when out in the field. Weighs as much as a tarp. Pack size similar to a water bottle. Micromesh canopy for air circulation and moisture control. DuraShield™ treated waterproof fly. Xtreme Shield™ treated floor. Easton® carbon fibre poles. Reinforced stress points for durability. Internal mesh storage pockets.
