

MSR
FreeLite™ 3 Ultralight Tent
\$1,219.90

Details

The MSR Freelite 3 is sophisticated and sleek backpacking tent that cleverly lightens your load. This design fits three people perfectly or two people with plenty of room to spare. With a semi-freestanding form, there's minimal fuss on set up - which means less time establishing a base and more time exploring. It's also really easy to pack and up and store due to its unified Easton® Syclone™ frame for 2019, which is made from aerospace composite materials to resist breakage in windy conditions. The Freelite 3 provides plenty of headroom for users, so you can sit around and chill out inside your sheltered space. The canopy is made from micromesh which keeps the airflow going while keeping moisture levels low and the insects out, while the fly and floor have an Xtreme Shield™ waterproof-coating for protection from the elements. There's also plenty of storage space for your packs and gear, as both doors have their own vestibule. So, if you're in need of a roomier (but still compact) hiking tent that minimises your set up time, the Freelite 3 is a model you can rely on. Freestanding form for easy setup Unified Easton® Syclone™ frame made from aerospace composite materials Xtreme Shield™ waterproof-coating on the fly and floor Large storage pockets 2 doors and vestibules
