Details

Go your hardest on the trail, without the discomfort of an ill-fitting pack with the women's specific Advanced Skin 8 Set from Salomon.

Designed for narrower shoulders, a shorter torso length, and to fit properly on the chest, this pack is made for comfort and functionality. This set has two front flask pockets and comes with two bottles which are designed to fit women's anatomy, so they have a triangular shape that's positioned lower to eliminate pressure and discomfort. The main stretch compartment as a side zip opening for your main items, while the lower back pocket has access from either side for easy use when you're on the go. There are also two front stretch pockets for essentials you want to keep close.

Call for help in an emergency with the safety whistle, transport your hiking poles via the multiple carrying options, and hook up a bladder to the internal sleeve for hydration when you're on the move. Whether you're new to trail running or an ultrarunner - the Advanced Skin 8 Set from Salomon women's specific design that will comfortably carry your gear.

Women's specific fit
 2 x 500ml women's specific soft flasks with straw included
 Multiple hiking pole carrying options
 One low back pocket with 2 side access options
 1 main stretch compartment with side zip opening
 2 front flask pockets with secure loops
 1 internal bladder sleeve with hanging loop
