

Black Diamond
**Moji Charging Station Lantern
 & Portable Power**

\$108.90

Details

With 250 lumens of light, and the ability to charge handheld devices - the Moji Charging Station from Black Diamond is the multi-tasker your outdoor setup needs. The singular QuadPower LED provides 250 lumens on the maximum setting, and the frosted globe produces bright yet ambient lighting. This simple design has multi-power charging capabilities, so it has a rechargeable sealed lithium-ion battery, is compatible with standard AA alkaline batteries or it can be used directly with AC with a separately available adaptor. Hang it up in your tent or in a tree for overhead illumination by the collapsible double-hook loop, and adjust the brightness with the dimming switch. This unit also charges out through its USB port for adding juice to your phone, camera or other small handheld electronic devices when you're out in the field. Experience portable power and lighting when you head off the grid, with the clever Moji Charging Station from Black Diamond. One QuadPower LED emits 250 lumens Frosted globe for ambient light 3-way power source - runs off direct AC (separately available adaptor needed), rechargeable battery or standard AA alkaline batteries Charges out via USB for small handheld electronics Single power switch dims the light for optimal brightness Collapsible double-hook loop for hanging
