### Details

The next generation of Speedcross is here, the Speedcross 5. The brainy designers at Salomon have once again lifted the bar, or shoes, to help look after your feet whilst you're pounding the trails. Key fundamentals they've looked at and improved are grip, performance, fit and stability. This runner features a Contagrip TA sole with fancy durable and adhesive chevron lugs - so you'll be able to grip wet and muddy terrain without falling on your butt. It's also got an OrthoLite sock liner, a deeper EVA heel cup for support and a moulded, high-rebound EVA midsole for lightweight stability and added cushioning. It's almost like Salomon has customised this shoe to fit you perfectly. The mudguard around the base of the shoe keeps them from getting dirty when you're at full tilt, and the Quicklace system means you get the perfect fit every time. With a pair of Salomon Speedcross 5, you can tackle soft or wet ground flat out without having to worry about slowing down. Ideal for: training and racing Improved stability, grip and fit Contagrip TA sole for loose rugged ground Chevron Lug pattern designed for durability and adhesion Sensifit with Quicklace Lightweight protection - just enough for technical trail running. Precise foothold Energy Cell midsole with lightweight cushioning and stability Mudguard around the base
