

Exped
Synmat 7LW Sleeping Mat
\$209.95

Details

Offering increased levels of insulation over standard self-inflating mats the Exped Synmat 7LW sleeping mat has the same makeup as the ever popular Downmats, only microfibre fill replaces down in each chamber.

The Synmat 7LW comes at a friendlier price than the Downmat and has a lighter pack weight, with the only trade-off being lesser insulation values. An integrated hand pump prevents dizzy spells and the build-up of moisture inside the mat when inflated by mouth.

Exped is an innovative Swiss brand who stand by the quality of their products, which is why each Exped mat is individually tested for airtight integrity prior to shipment. All mats are designed to withstand 5 times the pressure attained during normal inflation, and they back their products with a 5-year warranty.

7cm thickness
 150g/sqm Texpedloft microfibre fill
 Long and wide dimensions
 Integrated hand pump
