Details

I'm sure there is an art to sharpening a knife but who has time for that? If you're as disinterested as me when it comes to maintaining your knives, check out the Smith's JIFF-S Knife and Scissor Sharpener. As the name implies - it'll have your knife sharp in a jiffy!

Two crossed carbide blades form a 'V' which will cradle your blade comfortably. Then, three or four strokes and bam a sharp blade. A scissor sharpener is incorporated into the handle and compatible with both right- and left-handed scissors.

As they say, a blunt knife is more dangerous than a sharp one. Sharpen up your collection in a jiffy, with a JIFF-S.

Sharpens a knife or scissors in 10-seconds
Sharpening blades reversible and replaceable
