Details

Finding a hydration bottle that's BPA free, and saves on space and weight can be a real battle, which is why Platypus came up with their soft bottle design. The 1-litre soft bottle with push/pull cap carries plenty of water for warm days in the city and on the trail.

This flexible bottle is perfect when you need to save on as much space and weight as possible - as it weighs 80% less than hard drink bottle, and can be squeezed in down the side of your pack super easily. Filled, it has an ergonomic shape that is easy to hold and drink from and because it is pliable, it will conform to a drink holder, a round pocket, a flat pocket or your hand.

Best of all, the Soft Bottle from Platypus won't leave you with a funny taste in your mouth every time you need to hydrate.
