

JetBoil Fuel Can Stabilizer

~~\$14.99~~ **\$11.90**

Details

You've walked all day... or maybe longer... and the thought of a warm goulash, chicken curry, or maybe a nice warm soup is making your mouth salivate.

The absolute last thing you want to happen now is for your stove to topple over, spilling your hard-earned meal on the ground! At least the ants will be happy, but you're going to be somewhat furious and very hungry.

Make sure this doesn't happen to you by stabilizing your stove with the Jetboil Fuel Can Stabilizer, compatible with standard isopropane/butane canisters and small enough to pack inside the Jetboil cooking systems and most compact cooking vessels.

Adds stability to your stove
Compatible with 100g, 230g and 450g canisters

Specifications

Snowys Code:	132933
Supplier Code:	JSTB
Packed Dimensions:	9L x 9W x 1.5H cm
Material:	Plastic
Weight:	0.027 Kg
